OECONOMIA NOVA — Skeleton v0.2.1-EN

FORSCH-0132-EN · Threshold A Thomas Schüller · Syntagma Forschung · Vienna · CC BY 4.0

1. Work-Idea and Position

OECONOMIA NOVA is a transdisciplinary reinterpretation of economics. This skeleton establishes the architecture: eight modules with conditional inferences (B-form), reform mosaic, and integration into the main work (FORSCH-0143).

Work thesis (condensed):

Re-conditioning rather than abolition. Middle position. Voiceless explicit. Directed development for all.

Methodological commitment: OECONOMIA NOVA does *not* commit to a specific ideology (no socialism, no anarchism, no green growth). It commits to a *methodology*: B-form conditional inferences, voiceless representation, capturing of uncreated value, asymmetric reform mosaic, social tipping channelled democratically.

2. Eight Modules

Module I — Methodology

- **I.1 ETHOSLAB B-Form:** conditional inferences instead of unconditional recommendations.
- **I.2 PRISM:** six lenses (economic, ethical, legal, social, technical, geopolitical).
- **I.3 WertKompass:** conflict-value breakdown without pre-decision.
- **I.4 GOVERNANCE framework:** actors, levels, mechanisms, conflicts, gaps, latitudes.
- **I.5 Bibliography discipline:** ~95 main sources, B14 lens-disclosure for interpretation.

Module II — Diagnosis: what doesn't work

- **II.1 GDP gaps:** material flow, carbon, water, energy, social — missing balances (→ FORSCH-0141 Material flow accounting).
- **II.2 Growth as illusion:** Daly/Georgescu-Roegen thermodynamics + Hickel/Kallis decoupling empirics.
- **II.3 Stoffstrom-Balance:** four parallel balances (→ FORSCH-0141 dedicated sub-work).

- **II.4 Financial bubbles:** Tulip Mania to crypto 2022, Kindleberger/Minsky/Reinhart-Rogoff (→ FORSCH-0133 dedicated).
- **II.5 AI infrastructure as cross-axis:** hyperscaler capex, semiconductor concentration, energy/water (→ FORSCH-0138 dedicated).
- **II.6 Supplier concentration:** three suppliers per value stage (crypto/CBDC/AI structural similarity).
- **II.7 Anthropocentrism:** animal exploitation as economic blind spot (→ FORSCH-0137 dedicated).
- **II.8 Atmospheric enclosure:** Polanyi endpoint, second-generation fictitious commodities.

Module III — Critique: where the structural pathologies are

- **III.1 Monetary system:** banking endogenous, Vollgeld alternative, CBDC architecture (→ FORSCH-0136 dedicated).
- **III.2 Marx accumulation:** primitive accumulation, Harvey accumulation by dispossession, Piketty $r > g$, Federici patriarchal.
- **III.3 Free trade asymmetry:** Eiermann shell game image, MAUTFORM cluster parallel.
- **III.4 Marketing asymmetry:** Galbraith dependence effect, Cialdini mechanisms, dark patterns (→ FORSCH-0139 dedicated).
- **III.5 Property, enclosure, gleaning (CORE):** Locke Proviso, George LVT, Ostrom commons, Federici, Piketty, decolonial (→ FORSCH-0134 dedicated, the largest sub-work).
- **III.6 Animal exploitation:** 75 bn chickens/year, AMR, B12-stall-to-clean argument (→ FORSCH-0137).
- **III.7 Knowledge exploitation:** bio-piracy, academic public-to-private, AI training data lawsuit wave.
- **III.8 Death as commodity:** designer babies (He Jiankui, PES), commodified dying (US hospices, MAID) (→ FORSCH-0139).

Module IV — Normative anchors

- **IV.1 Voiceless explicit:** seven actor groups with voice asymmetry.
- **IV.2 Social without national:** middle position between methodological nationalism and international liberalism.
- **IV.3 Honesty as foundational value:** truth fidelity in science/politics/market.
- **IV.4 Middle position:** neither bottom-up nor top-down.
- **IV.5 B-form conditional operator:** methodological choice throughout.

Module V — Regulatory instruments

- **V.1 Pigovian taxes:** carbon, advertising, animal product, AI compute, sugar, plastic.
- **V.2 Capturing uncreated value:** Land Value Tax, inheritance tax, carbon dividend, data surplus tax — the methodologically clean reform instruments.
- **V.3 Prohibitions:** cage husbandry, CRISPR embryo editing, dark patterns, greenwashing, routine antibiotics.

- **V.4 Constitutional limits:** privacy, holding limits, two-tier, programmability, animal dignity, Pachamama rights, whistleblower protection, AI audit.
- **V.5 Global architecture:** Paris Agreement, BEPS Pillar 2, EU AI Act, MiCA, WHO AMR — Brussels Effect as leverage.

Module VI — Alternatives

- **VI.1 Heterodox synthesis:** 19 schools inventory (– FORSCH-0126 dedicated).
- **VI.2 Ostrom commons governance:** 8 design principles, applications to AI/atmosphere/housing.
- **VI.3 Solidarity / common good:** Mondragón, GPFG Norway, cooperatives, Solawi, CLTs.
- **VI.4 Cradle-to-Cradle:** material cycle closure, EU Right to Repair.
- **VI.5 Empirical examples + asymmetric reform (– FORSCH-0140 dedicated).**
- **VI.6 UBI/UBS/Care-Income/Sovereign Wealth/Sky Trust mosaic.**

Module VII — Transformation

- **VII.1 Social tipping points (Otto 2020):** six tipping elements (– FORSCH-0135 dedicated).
- **VII.2 Centola 25% threshold:** norm shift empirics, eight historical examples.
- **VII.3 Polanyian double movement:** current operationalization, fascism risk.
- **VII.4 Sankara anchor:** Burkina Faso 1983-87, directed development empirics, honest reflection on authoritarian limits.
- **VII.5 What everyone can contribute:** 10 conditional (B-form) recommendations B1-B10.

Module VIII — Appendix

- **VIII.1 Tool spec ABM modeling game (– FORSCH-0142 dedicated).**
- **VIII.2 Methodology toolkit:** PRISM/WertKompass/GOVERNANCE/ETHOSLAB references.
- **VIII.3 Bibliography (~95 sources consolidated).**
- **VIII.4 Workshop connections index:** 13 parallel works in May/June 2026.
- **VIII.5 Work cards per sub-work:** structured metadata.

3. Reform-Mosaic Architecture

Layer	Instrument	Capture / Effect
Tax layer	LVT, progressive inheritance, carbon w/ dividend, data surplus	Capture uncreated value
Transfer layer	UBI, UBS, Care-Income, Participation Sociale, Sky Trust	Dignity + equality
Constitutional layer	Privacy, holding limits, animal dignity, Pachamama, whistleblower	Protect voiceless

Layer	Instrument	Capture / Effect
Prohibition layer	Cage husbandry, CRISPR embryo, dark patterns, greenwashing	Non-priceable structures
Alternative layer	Cooperatives, commons, Solawi, CLTs, FOSS	Empirical alternatives
Global layer	BEPS Pillar 2, Paris, CBAM, AI Act, MiCA	Brussels Effect leverage
Generational layer	Sovereign Wealth Funds	Stewardship for future generations
Tipping layer	Otto/Centola activation, channelled double movement	Norm shift dynamics

4. Connections to OECONOMIA NOVA Sub-Works

Each sub-work deepens specific skeleton modules:

FORSCH	Sub-work	Modules deepened
0126	Inventory (19 schools)	I + VI.1
0132	Skeleton (this work)	structural overview
0133	Financial bubbles + crypto	II.4
0134	Property core	III.5
0135	Transformation	VII
0136	CBDCs	III.1
0137	Animal ethics	III.6 + II.7
0138	AI infrastructure	II.5
0139	Marketing + death	III.4 + III.8
0140	Empirical alternatives + reform	VI.5 + VI.6
0141	Material flow accounting	II.3
0142	Tool spec ABM	VIII.1
0143	MAIN WORK	integrates all

5. K-2 Collision Notes (v0.2.1 patch)

Version v0.2.1 (June 3, 2026) is a patch after K-2 collision. Originally numbered FORSCH-0127 (skeleton), the parallel chat session cfa046d0 had concurrently assigned 0127 to MAUTFORM cluster. Re-numbering to FORSCH-0132.

Methodological lesson: NAMENS-REGISTER v2.0 race discipline — `conversation_search` AND Memory-View before *every individual* FORSCH-ID assignment in race-active days.

6. ETHOSLAB Conditional Inferences

The skeleton's central conditional inferences (B-form):

#	Condition	Inference
B1	IF planetary boundaries crossed	THEN diagnosis-before-reform compelling
B2	IF decoupling empirically insufficient	THEN degrowth at least for industrialized countries
B3	IF property historically grown	THEN re-conditionable without dispossession brutality
B4	IF money endogenous	THEN architectural choice for CBDC/Vollgeld
B5	IF anthropocentrism critique sound	THEN animal ethics structurally consequential
B6	IF Centola threshold ~25%	THEN norm shift operationalizable
B7	IF Polanyi double movement applies	THEN good instruments needed for democratic channel
B8	IF voiceless representation possible	THEN Pachamama + Sovereign Wealth methodologically zwingend

7. Self-Audit
